

# Animals of the Rainforest Project

Zoo Atlanta is opening a new exhibit on animals of the rainforest and has asked for our help in choosing the animals to include. Our job is to create PowerPoint presentations about interesting rainforest animals to share with zoo officials.

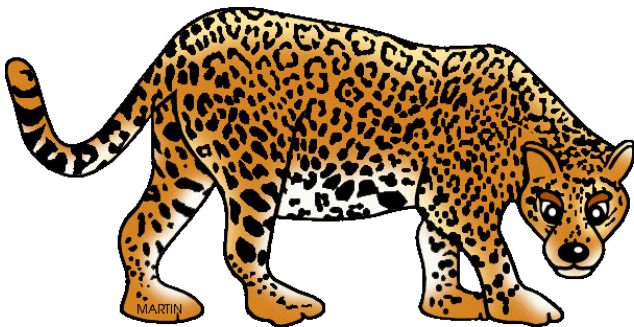

Therefore you will be creating PowerPoint presentations to share with the class about an animal found in the rainforest. The following are the steps to complete this project:

1. Choose your animal.
2. Research your animal in the computer lab and fill out the fact sheet.
3. Plan your power point presentation.
4. Make your power point presentation.
5. Present your power point to the class.

## Slides you must include:

1. Title slide
2. Classification (Scientific Name)
3. Physical Characteristics
4. Habitat
5. Diet
6. Adaptation
7. Life Span and Life Cycle
8. Endangered Status
9. 5 Cool or Interesting Facts about the animal
10. Why should this animal be chosen for Zoo Atlanta?
11. What special considerations must the zoo know about before choosing this animal?

## Helpful Hints:

1. Complete Research first!!
2. Create 11 slides first and add layout designs.
3. Add all titles to slides.
4. **ADD TEXT TO SLIDES BEFORE ADDING GRAPHICS AND ANIMATION!!!!**
5. After text is on all slides go back and add pictures, graphics, animation and sound.
6. **SAVE YOUR PROJECT TO THE "W" DRIVE IN THE FOLDER: SILVERMAN RAINFOREST PROJECTS.**
7. **Ask before you shut down your computer the first day so I can make sure your project is saved in the correct location..**

The animal I am researching is: \_\_\_\_\_

The Scientific name is: \_\_\_\_\_

Physical Characteristics: (Size, Color) \_\_\_\_\_

Habitat: (Where does my animal live?) \_\_\_\_\_

Adaptations: (What does my animal do to survive?) \_\_\_\_\_

Life Span/Cycle-(How long does my animal live? How many young does it produce? How does it change from an infant to an adult?) \_\_\_\_\_

Diet: (What does my animal eat?) \_\_\_\_\_

Endangered Status: (Is my animal endangered? Why?) \_\_\_\_\_

Cool Facts about my animal: \_\_\_\_\_

Why should this animal be included in the exhibit? \_\_\_\_\_

What things must the zoo know before they include my animal? (Size of exhibit? Animals is can't be near? Food? Danger?) \_\_\_\_\_

Sources: (Where did I find my information? What websites did I use?) \_\_\_\_\_
